

Providing Critical Services in Complex Situations and Difficult Times

We are committed to providing our clients with the rapid deployment of emergency medical, logistics, and security staff to quickly respond to the US mission combatting COVID-19.

GardaWorld Federal Services (GWFS) is the GardaWorld business unit that is singularly focused on supporting the US Government (USG) with the unique experience and posture to provide meaningful assistance in this time of crisis. We have supported the USG with medical and security support

services since 2003. GardaWorld employs 102,000 personnel with 30,000 of those personnel operating across the United States alone. We are committing our resources to the effort to fight COVID-19 with urgent medical, logistics, and security support.
